Gerlach Says It Is High
Time for A Change**

BUCKINGHAM, Sept. 10.—"County Candidates' Night" was observed at the first meeting of the Loyal Republican Club held last evening following a summer recess. The session took place in the club headquarters here, with 500 attending.

Congressman Charles L. Gerlach, of the 8th district, who is seeking his fifth term, reported on affairs in Washington, D. C., during the past eight years. "The fact that President Truman cannot get his majority legislators in the House to support his suggested legislation is proof enough he is on the wrong track. Truman is not the man. He has not proposed the kind of legislation needed in the United States today and it is high time for a change."

State Representative William L. Yeakey, Perkasie, who is seeking re-election, and State Representative Thomas B. Stockham, Morrisville, who is also seeking re-election, were also introduced to the assembly. Mr. Stockham stated "Leadership of Christian men and women is needed now in America. We need in the Republican party those things that would put us under the banner of the Prince of Peace." Mr. Stockham also pointed out that out of World War II have emerged two great nations, the United States and Russia, and he added "Russia has emerged more dangerous than at any time in history."

Edward J. Watson, a candidate for the state senate, and a resident of Mechanicsville, was presented by Mr. Clayton. Mr. Watson, was introduced as "the man responsible for the Loyal Republican Club," emphasized the fact that "America is at the crossroads, and if we do not send a majority to congress, chances of improvement will be lost for at least two more years. They talk about veteran housing. That's a joke. Show me a veteran today who is able to get decent housing and show me one who can find anything to put in a house. There are no

THE GREAT GAME OF POLITICS

By FRANK R. KENT

Cowardly Leadership

Washington, Sept. 10. FOR reasons too well known to need repetition, in the off year preceding a presidential election the political situation in New York is nationally interesting and important. The note struck and the things done in the respective party gatherings there make an impression on the rest of the country. There is no doubt about that.

THIS time it would seem that the impression made by neither the Democratic nor the Republican convention has been any too good. The most unpleasant feature of both was the degree to which each exhibited its subservience to the professional labor bosses. It was a craven performance and the excuse that it was necessary does not redeem it. For the situation where it appears to be necessary is due not to the smartness of the labor bosses but to the extreme eagerness of the party politicians for labor support.

THIS period of politics stems from the White House-labor union alliance engineered by the late Mr. Roosevelt in 1934, which resulted in almost complete labor-boss partnership with the Democrats in three presidential campaigns. Since that year the Democrats have consistently yielded to every labor-boss demand in order to continue the solidarity of their support, while the Republicans have vainly striven to crack it. The effect of all this has been to put the labor bosses in a dictatorial position where, though this year their inability to punish or reward has been convincingly demonstrated in the primaries, the

Mrs. Mary Wambold was re-elected president of the Ladies' Auxiliary of Hartzell-Cronham Post, American Legion, at a meeting in Fraternity Temple, Perkasie, last week.

Other officers were elected as follows: first vice-president, Mrs. Lauretta Goette; second vice-president, Mrs. Eleanor Frederick; secretary, Mrs. Elsie Heyder; treasurer, Mrs. Florence Price; chaplain, Mrs. Minnie Wimmer; historian, Mrs. Margaret Reider; sergeant-at-arms, Mrs. Mabel Hendricks; and pianist, Miss Marjorie Spoel.

Announcement has been made by Congressman Charles L. Gerlach, Allentown, that as the result of having attained the highest rating in a competitive examination, he had given his principal appointment to the U. S. Military Academy at West Point to Pvt. Charles R. Witmer, Jr., son of Mr. and Mrs. Charles R. Witmer, of Sellersville.

Pvt. Witmer at present is stationed at Fort Lewis, Wash.

This appointment, however, does not mean Witmer is assured of entrance to West Point because he must qualify by passing rigid mental and physical examinations, which will be conducted next March.

A SUMMARY OF THE NEWS

The nation-wide maritime strike went through its fifth day without any indication of a settlement. The Wage Stabilization Board reopens today its ruling denying negotiated wage contracts, the cause of the walkout. Labor was expected to boycott the hearings.

Pittsburgh electric power workers were scheduled to strike at midnight, shutting off all current in that city.

Meat is being sold again under price ceilings. Though the OPA expects a temporary shortage, it does not look for famine conditions. Officials frowned upon restoring rationing, but may consider rising ceilings to encourage production.

Longshoremen will lead no relief ships for Yugoslavia until that country takes "proper action" against those responsible for shooting down American planes, Union President Ryan said. The State Department admitted that UNRRA rails consigned to China had been transferred to Yugoslavia, but said this was due to the embargo on Chinese ports.

Six Yugoslav soldiers assigned to guard UNRRA supplies were arrested by American military police in Trieste after an Italian home had been bombed.

Mrs. W. B. Reed, 79, Dies At Her Home in Parkland

PARKLAND, Sept. 10.—At the age of 79 years, Mrs. Harriet Rachel Reed died at the home of her granddaughter, Mrs. Hughbert Green, Avenue B, here, yesterday morning. Mrs. Reed resided at the Green residence.

Daughter of the late William and Margaret Chambers Berry, and widow of William B. Reed, Mrs. Reed is survived by a daughter, Miss Elsie Reed, Parkland; her granddaughter, Mrs. Green; five grandchildren; and a sister, Mrs. Fred Specht, the latter of Langhorne.

The Rev. F. R. Hummel, pastor of Langhorne Methodist Church, will conduct the service at the Horner funeral home, Langhorne, Thursday afternoon at two o'clock. Interment will be in Beechwood Cemetery, Hultmeville. Friends may call Wednesday evening.

The deceased had made her home in lower Bucks Co. for her entire lifetime.

OFFICERS' MEETING

IS RED PERIL "ABSURD?"

Democrat John S. Rice, Candidate for Governor, has denied that there is any link between his party and Communism.

Such a charge is "absurd," he says. That's the word he used.

Rice's attempt thus to "brush off" an issue which many Americans believe to be one of the two major problems of the day—the other being the threatened bankrupting of the nation by way of inflation—raises many interesting questions.

The first, of course, is: Does Col. Rice believe his own statement?

This would not be the first time, it may be pointed out, when a Democratic hopeful might find it necessary to dispute generally known facts for campaign purposes.

But it is hardly possible to go behind a remark of this nature, and seek to decide what is in the speaker's mind.

Accepting Rice's statement at its face value, other questions arise. How does it happen that Col. Rice is so far out of step with other public figures? How can he fail to see the Red Menace so conspicuous to nearly everyone else?

And here is the \$64-dollar question—if Col. Rice is so blind as not to recognize the tie-in of his party with Communism, is he smart enough and clear-sighted enough to make an acceptable governor for the Keystone State?

No one but a political hermit is unaware that Russia has the equivalent of a Fifth Column working in the United States.

If Col. Rice hasn't heard about it, here are some "leads" he can follow.

Recently, U. S. Attorney General Clark—who, for Col. Rice's information, is a Democrat—made several speeches and public statements demanding that pro-Communists be weeded out. They couldn't be weeded out if they weren't there.

BURGESS REPORTS TO COUNCIL

A report on his post-war program of "things to be done" was given to borough council last night, by Burgess Jacob C. Schmidt, Sr.

It reads: To the President and Members of the Bristol Borough Council: Gentlemen:

It is about a year since I outlined a post-war program for Bristol. I would like to report on our progress.

First, let me say that our first year of peace has been a disappointment in many ways. When the war ended, everyone assumed that we would return rapidly to normal peacetime conditions. Reconversion has been painfully slow.

Production still is poor. A year after peace, scarcities seem to be as bad as during the war. Just as it is hard for housewives to find such things as sugar and meat, so it is hard to buy steel and other articles the Borough needs.

This has resulted in delays. However, a great deal of progress has been made.

The parts of the program which didn't depend on materials have done well.

I don't think anyone will deny that Silver Lake really came into its own during the summer. The Park there has been well cared for by the State Fish Commission, in line with the requests made by your Borough Government.

AWARD CONTRACT FOR DRAINAGE JOB

**Newtown Borough Council
Gives Job to Harry L.
White for \$2,509.28**

STREETS IMPROVED

NEWTOWN, Sept. 10.—Borough Council, in session, awarded the contract for the drainage project on Norwood avenue from Washington avenue, to Harry L. White, Doolington, for \$2,509.28. Other bidders were Kauffman Brothers, \$2,522.65, and Conway & Ryan, \$3,152.95.

This improvement, when completed, will tie in with the large pipes installed under Washington avenue at Norwood, and will carry surface water from the streets in the east end of the town to "Skunk" Creek and thence to the Neshaun.

Council decided to tighten up on the enforcement of the borough ordinances. Unauthorized street excavations and the riding of bicycles on the sidewalks will be investigated and dealt with according to ordinance.

Permission was granted Delaware Valley Lockers to erect a sign on North State street in front of their property.

The street committee reported that the top dressing of the streets had been completed and that a new

SAYS HUSBAND ACTS LIKE "SECOND HITLER"

**Judge Suspends Sentence
in Case of Robert Farnsworth of Emilie Road**

ONE PLEADS GUILTY

DOYLESTOWN, Sept. 10.—The September term of Bucks County Criminal Court opened yesterday with the Grand Jury in session in the Grand Jury room, and plead guilty cases in Judge Keller's Court.

Robert Farnsworth, 31, pleaded guilty before Judge Keller to a charge of assault and battery on his wife, Ellen, of 775 Emilie rd., Bristol.

The defendant, a railroad fireman and emergency engineer, admitted hitting his wife in an argument over waxing the floors of his home on Bath rd., Bristol.

Frederick Collins, father of Mrs. Farnsworth, denied that he in any way interfered with the home life of Farnsworth and his wife, as the defendant had charged.

Mrs. Farnsworth told the Court that her husband "acts like a second Hitler."

Judge Keller suspended sentence in the case on condition that he pay the costs and treat his wife respectfully.

Elwood J. Brown, 29, of Morrisville, pleaded guilty before Judge Keller to a charge of assault and battery on Nicholas Zahorik, of North Carolina, on Aug. 9, in Morrisville. The Court suspended sentence on condition that Brown pay the costs. Zahorik was not in Court.

The fight took place, Brown testified, when Zahorik called him an obscene name, and charged him with going out with his wife. Zahorik's loss, a witness testified, was a broken set of false teeth and broken eye glasses.

IS HOSPITALIZED

Louis C. Spring, Radcliffe street, was removed to Jefferson Hospital, Philadelphia, yesterday in the ambulance of Bucks County Rescue Squad.

Britain Moves to Prevent Spread of "Squatters"

London.—The British Government moved today to prevent further spread of the "squatters" epidemic. Secret instructions were issued to a special detail of Scotland Yard men and police to be ready to resist any further efforts to "grab" private property.

Meanwhile, it was learned that the Ministry of Works will obtain a court order to repossess the Duchess of Bedford's house, "occupied" over the week-end by the "squatters."

Meat Back Under Ceilings, But "None on Market"

Chicago.—Fresh meat was back under OPA retail price ceilings today, with Chicago and most of the country reporting none was to be had. The meat shortage found butcher shops stripped of their stocks and widespread unemployment in the industry.

A report that Washington officials were considering a return of meat rationing caused a spokesman for the butchers to remark—"What's the use of rationing if you haven't anything to ration?" The seriousness of the situation was reflected in the receipt of live-stock at the Chicago Union Stockyards, largest in the world. Cattle and hogs were the lowest on record yesterday for a normal Monday. In some mid-Western packing centers volume picked up slightly, but the stock was admittedly of inferior grade.

Phila. Man Claims Young Woman Stabbed Him

Philadelphia.—A man walked up to several policemen who were leaving a station house today and asked calmly—"Hey, will you pull this out of my back?" The policemen obligingly yanked at a small wooden handle protruding from the man's jacket. "It's an ice pick," the man added casually. The man gave his name as Louis Milean, 39, of North Philadelphia, and he told police he was stabbed by Chichita Gorgiona, 27. She was taken into custody on assault charges.

"Parking Problem" Moves "Up the Street"

Installation of parking meters here has moved the "parking problem" from one area to another, judging from observation this morning.

There was a more general use of the borough's free parking lot and motorists nosed their cars into spaces at the boat wharf area, on vacant lots near the Bristol House and elsewhere where parking was free.

It appears as if installation of the meters in the Mill street area was what was required to give the motorist who occasionally wants to park his car in the area while transacting business, an opportunity to do so. It looks as if the motorist who has been "hogging" the parking space has gone from the area, perhaps farther up some of the streets, where he can use the public streets for all-day parking without charge.

A hasty survey this morning, after the parking meter law had been effective for 40 minutes, showed plenty of vacant spaces on Mill and Radcliffe streets. There was not a single car parked on Market street between Radcliffe and Cedar streets, and in fact there were only one or two parked the entire length of Market street. There were none on Pond street, from Market to Mill streets.

An observer remarked that those employed in offices along Mill street were seen parking their cars on Radcliffe street, almost as far away as Mulberry street.

Dozens of cars were parked on Cedar street and on Wood street and on Radcliffe street, east of Market street.

SLATOFF IS MOVING

The building at Market and Radcliffe streets, adjacent to the Bristol Trust Co. is being vacated by Max Slatoff, antique dealer, who is moving his stock across the street to a property adjoining his residence.

The building which is being vacated by Mr. Slatoff, and which a number of years ago was occupied by the federal government as a post office, having been built by the late William E. Doron for that purpose, has been purchased by the Bristol Trust Co. The purchase was consummated some time ago.

Other occupants of the building, including a number of lodges, and William E. Conca, Esq., have been requested to vacate as soon as they can conveniently find other quarters.

The Trust Co. plans to occupy the building and may make alterations so as to better adapt it to the company's purposes. It includes two stories and a basement.

ONE MAN'S OPINION

By Walter Kiernan
(Distributed by International News Service)

UN HALL, Lake Success (Special Rates for Fall)—The decision to cancel the atom bomb under-water test was well received here -- now we can get out our bathing suits.

I hear President Truman called off the test because he figured the chance of an enemy crawling under the Pacific on hands and knees was remote.

Foreign observers who held tickets for the under-water bomb test can turn them in for an under-water pen demonstration in the MMCA pool.

We have a report here that atomic energy is about ready for industry -- we are awaiting John L. Lewis' chain reaction.

The report says that if coal goes up another three dollars a ton it will catch up with atomic energy costs -- O. K. John -- take it from here.

The nice thing about atomic energy is that there are no ashes to shovel -- of course you may glow in the dark but think of the fun you'd have reading a newspaper by your own light.

TUESDAY, SEPTEMBER 10, 1946

WASHINGTON STATISTICS

Industry is turning out civilian goods at a rate approaching a record, announces John D. Small, head of the Civilian Production Administration. Basic materials producers have virtually reached their capacity and finished goods factories are within sight of full production, according to Washington.

The housewife has to scramble for soap before she can do the family wash. There's little sugar for canning an abundant fruit crop. Soon, according to all indications, there will again be little meat.

Automobile assembly lines turned out 56 per cent more cars in July than in June, but many people afoot are trying vainly to buy new cars. Repairs on old cars are lagging because of shortage of parts. If a 1941 tire blows it is difficult to find a new one; if a 1931 tire blows a new one is out of the question because factories are not making that size.

Gross national production hit a pace of 130 billion 1939 dollars in the past quarter, which is within 5 per cent of the all-time peak. Those looking for shade cloth and linoleum to renovate their homes are told Argentina has most of the linseed oil and has sold it to Russia.

Washington statistics and consumer experience diverge widely. Consumers have their doubts about the first half of the old axiom that figures cannot lie.

MEAT PRICES

In restoring price and slaughter controls on meats it seems to have been the intent of OPA to forestall black market operations, or at least that purpose motivated the Department of Agriculture, which has ordered increases in livestock prices over June 30 ceilings. This will result in increased retail prices for meat, estimated at 1/2 to 3 cents per pound on pork and 5/2 cents on beef cuts. Ceiling prices of hogs has been boosted over June 30 levels to \$16.25, and on live cattle to \$20.25.

But the most important change in OPA control has to do with processors. Previously OPA regulated only those handling non-government inspected meat, the Agricultural Department having charge of plants operating under government inspection. Under the new setup OPA has jurisdiction over all slaughterers. Every carcass must be labeled by the processor in such a manner that the meat can be traced back to its origin in case it is found on a black market.

OPA is making its last stand on meats. Nearly every other commodity has been increased in price, the list increasing daily. An army of 2,500 inspectors will now go into the field to enforce the new orders and the internal revenue department will keep a weather eye on incomes which may result from black market operations.

Meanwhile, housewives will find little relief from high prices of meats under the new schedule, and shortages are expected to become acute. The cost of living is increasing in spite of Washington's claims to the contrary.

IS RED PERIL "ABSURD?"

Continued from Page One

Again and again it has been stated, by Democrats as well as Republicans, that "career workers" in the Department of State, some of them openly Communist, are dominating our foreign policy. Secretary Byrnes virtually confessed their presence there by promising to "purge" them. No real purge has taken place; therefore, the Reds must still be on the job.

The Philadelphia Record, long a mouthpiece for the wing of the Democratic Party which Col. Rice represents, in the same edition which presented Col. Rice's denial at length in its news columns, had this to say editorially:

"Now that disloyalty is an open and avowed Communist doctrine, we await with interest the reaction of those liberals who have been taken in, up to now. Meanwhile, forewarned must be forearmed. Communists must be ousted from all positions in Federal, State and local governments."

What the Record does not say, but which of course every one knows to be the fact, is that every one of these Communists got his job and was protected in it by the high command of the Democratic Party.

What may not be quite so obvious is that, now that the public is becoming alarmed over the Red infiltration, the New Dealers are suffering an attack of jitters and a sort of death-bed repentance; hoping to convince the public that they seriously plan to throw out the Communists whom they have put in power.

In other newspapers reporting Col. Rice's "absurd" denial were references to the spectacular battle going on behind the scenes in the CIO. Recently the Philadelphia Record editorially called upon Philip Murray, President of CIO, to throw out the Communists who have seized the nerve-centers of that labor organization.

Murray has failed to do so, although in various public comments virtually confessing that the Communists are there and that they are in control. He calls his policy "non-intervention."

This situation will be accepted by many as full confirmation of the historic statement of John L. Lewis, explaining his reasons for leaving CIO, which he helped organize:

"The Communists dominate the CIO... Philip Murray is today the prisoner of the Communists in his own union. They control him and the CIO through their seats on his executive committee. And there isn't a blessed thing he can do about it. Sidney Hillman is just as badly off. Both of them have got to play ball with the Communists, or die."

This charge is fully backed by factual material gathered by the Dies Committee in Congress—and it is to be remembered that while the New Dealers, Communists and fellow-travellers have "smeared" the Dies Committee endlessly, they have never attempted to refute the factual material in the reports. They cannot, for most of it is from Communist sources.

The Communistic leanings of the CIO have been shown in a host of ways, too numerous to attempt to list here; but one of the most obvious of which were the "exchange visits" of labor-union committees between the United States and Russia, in which most favorable pro-Communist propaganda was released upon the American public.

To bring the matter down to cases for Col. Rice's benefit, the situation is that the national administration has been strongly infiltrated with pro-Communist individuals and doctrines. A political victory for this group, such as Col. Rice advocates, would unfailingly be construed as a "mandate" to proceed with Communistic collectivism.

All of this focuses on the agreement between the Pennsylvania Democratic candidates, of whom Col. Rice is one, and the PAC, whereby the PAC proposes to spend upwards of \$600,000 on behalf of Col. Rice and his associates, in return for benefits and favors not yet made public.

Whatever else may be said about the PAC, there is no reason to assume that it doesn't know the value of

money; and if it is going to spend \$600,000 electing Col. Rice, surely it expects to get at least \$600,000 worth of favors in return.

Is the PAC Communist? There is hardly room for argument about the matter.

The PAC is the offspring and political arm of the CIO. If, as seems abundantly well established, the CIO is in the hands of Communists, then so is the PAC.

The PAC was invented by Earl Browder, then the king-pin Communist in the United States—being the party's general secretary. He worked out the PAC scheme while in Atlanta Federal Penitentiary for passport frauds; and there are those who think that his pardon about this time by President Roosevelt was made so he could be on hand to help Sidney Hillman and others put the PAC into operation.

Whatever may have been the exact internal structure of PAC's top-flight command under Sidney Hillman, there is no argument about what it is since Hillman's death. It is being run by a five-man directorate or "brain-trust." Every one of these is tied in with "Communist Front" activities.

If Col. Rice is too dumb to see that his party has sold out to a pro-Communist clique, surely he is too dumb to be trusted with the Governorship of Pennsylvania.

The Great Game of Politics

Continued from Page One

politicians are afraid to reject their terms.

PARTICULARLY is this true in New York and with the Democrats, where the American Labor party, completely controlled by a CIO-Communist combination, has proven its indispensability to Democratic success in the State. Under the circumstances, it was held inevitable that the Democrats nominate a ticket acceptable to the ALP control. This they have done most conspicuously in the case of Senator James Mead, the candidate for Governor and in the case of Mr. Henry Epstein, a member of the CIO's Political Action Committee, for the Court of Appeals. Senator Mead a short time ago was proclaimed by the CIO publicity machine as one of the two "perfect senators" in that on no occasion has he failed to vote for or against legislation as desired by the CIO.

THAT, plus his undeviating support of every New Deal policy, is really what rendered him available. Four years ago when the CIO, with Mr. Roosevelt's aid, proposed him for the nomination he was opposed by Mr. James A. Farley on the ground that he just did not have the stuff to be a governor. Mr. Farley is the kind of Democrat who always supports the ticket but he was conspicuously absent from the convention that unanimously nominated Senator Mead, who will now be endorsed by the ALP. The Communists have already made it clear that they are anxious to confound so far as it can be done.

THIS, the Democratic ticket again evidences a cowardly alliance with elements that ought to alienate every independent voter in the State. However, the Republicans are not free from the same taint of political cowardice. It is true that Governor Dewey, to his credit, is violently opposed by both the CIO and the Communists. But it is also true that Maj. Gen. William J. Donovan, clearly the best aspirant for the senatorial nomination, was turned down by the Republican leadership, because of arrogant demands and open threats from a few American Federation of Labor leaders in the State.

THE attack, plus the outrageous and baseless charges made against General Donovan, ought to have insured his nomination. Instead, they insured his defeat, which was disgraceful to the party. It is no excuse that Mr. Ives, nominated for the Senate, is an able, well-qualified man. Nor is it much of

an excuse that Governor Dewey, with the CIO and Communists against him, could not be expected to antagonize the A. F. of L. too. Apparently, in New York the party leadership on both sides is willing to sacrifice self respect for dubious political profit. Each is willing to be bullied by these labor professions, rather than call a bluff which is becoming more transparent all the time.

products coming to us. Let's send men like Congressman Gerlach back to Washington to continue the fight against a bungling administration which has been a complete failure."

Mrs. Ralph R. Dunn, Mechanicsville, president of the Ladies' Auxiliary of the Republican Club, and Mrs. Howard Kooker, Quakertown, president of the Bucks County Council of Republican Women, extended greetings to the candidates, and urged all individuals to make certain they are registered.

Republican county chairman, A. Harry Clayton, announced that the annual meeting of the county committee will be held in the armory at Doylestown on Saturday, September 28th, at two p. m., and that the entire state ticket, headed by Governor Edward Martin, will be in attendance.

At the October session of the Loyal Republican Club state candidates will be present.

THE CAPITOL WHIRL

A Digest of Things Political Occurring At Harrisburg

Speculation has increased in Capitol Hill as to whether Ira T. Fiss, of Shamokin Dam, Speaker of the State House of Representatives, would be re-elected if the Republicans retain control of the lower House at the general election November 5. . . . Fiss, a quiet, soft-spoken, mild-mannered man who has guided the legislative proceedings gently but with a firm hand, has served two terms as Speaker. . . . There have been reports that House Majority Leader Franklin H. Lichtenwalter, of Lehigh, and Rep. Herbert P. Sorg, (R) Elk, majority whip, may be candidates for the post. . . . No open opposition to Fiss has developed. . . . Harry P. O'Neill, of Danmore, dean of the Democratic delegation, will be his party's candidate for the Speaker-

ship if he is returned to the House for another term. . . . O'Neill was first elected a State Representative in 1928. . . . A spokesman for the C. I. O. Political Action Committee has reported that the organization's registration drive was making "good progress" and pointed out that the campaign to collect \$1 from each of the 600,000 C. I. O. members in Pennsylvania would begin very shortly. . . . The P. A. C. has been conducting an intensive, house-to-house registration drive, the spokesman explained.

Both Republican and Democratic chiefs were expected to spur their registration drives during the first two weeks of next month. It was anticipated that special efforts would be made during the two-week period to enroll housewives and youths. . . . Pennsylvanians must be registered before the September 14 deadline to participate in the general election November 5th.

KNOW YOUR STATE

Pennsylvania's Courts stand first in the Nation in their record of law enforcement, according to the reports of the Bureau of the Census on Judicial Crime Statistics. . . . More criminals were sentenced in our Courts during 1943-1944, the last year for which data are available, than in any other state in the Union. More than one-fifth of all the convictions for major criminal offenses in the United States were obtained in Pennsylvania in that two-month period.

Perhaps as a consequence of this vigorous enforcement of the law by our police officers and Courts, Pennsylvania is one of the lowest states in the Union in its urban crime rate.

The Commonwealth is second in population in the United States, but has the lowest record of thefts per 100,000 population of any one of the forty-eight states. Its record in 1943-44 was 225 thefts per 100,000, as compared with the national average of 329 per 100,000 and the

high record of 2228 in the State of Arizona. Thirty-nine states have a worse record of automobile thefts and 38 a worse record for burglaries than the Commonwealth. There were 295 murders recorded per 100,000 population in Pennsylvania as compared with a national average of 477 and a high record of 1944 in Alabama. In crimes of violence the State's record is consistently low. Its 39 cases of robbery per 100,000 population must be compared with the United States' average of 45 and a high of 121 in the State of Delaware.

Pennsylvania had less than half as many cases of aggravated assault as the United States' average and 1/19 as many as North Carolina.

Despite the present wave of lawlessness which seems the inevitable consequence of a great war, the law enforcement agencies of Pennsylvania have performed a remarkable job in making the Commonwealth so unhealthy for the criminal classes, that the State's record of major crime is one of the lowest in the entire United States.

Today's Quiet Moment

By Rev. J. H. Queen
Pastor
Bethel A. M. E. Church, Bristol

O Lord, God of heaven, we wonder that Thou didst create an art unchanging, while man has wavered in his allegiance. Teach us steadfastness in faith, loftiness in hope and constancy in love. Help us to display more often our divine making, living as brothers and growing as sons of God. Make love our common possession and share with us Thy fellowship as we share with each other the fellowship we have in Thee. Teach us to walk only with Jesus in daily faith through the Holy Spirit. Amen.

UPPER SECTION DEFEATS LOWER IN CHURCH LEAGUE

Runs Were Scored in Every Inning Until Game Ended 20 to 13

MADE 17 BASE HITS

Johnny Jones Had Batters "Eating Out of His Hand" For Six Innings

Scoring in every inning and almost at will the "Upper" Section defeated the "Lower" Section of the Lower Bucks Church Softball League by the football score of 20-13 on Leedom's Field under the lights last night before a crowd of fans.

The Bristol teams displayed a potent offensive attack as basehits rained all over the field. They rapped out a total of 17, including three home runs, a triple and a double, which coupled with a half-dozen passes and an assortment of errors tossed in by the "Suburban" teams, accounted for the high scoring. This, however, was due mainly to the lightning conditions under which the game was played.

Displaying his blazing fast ball, which under the lights, was even more effective than over, Johnny Jones of Bristol Presbyterian had the "out-of-town" boys eating out of his hands for the first six innings, during which time he allowed only three measly singles (one each by Johnny Becker, George Sperling, and Charlie Madler) and had given up only two runs both of which came in the 5th frame on two walks, a fielder's choice and an infield single. Over the six-inning stretch, Jones had given up only four passes and had nine strikeouts to his credit. He weakened considerably, though, in the 7th in which frame the visitors got to him for two walks and three hits whereupon Maris Hart came in. But he was reached for two more hits and three passes before Jones returned to rack up his 10th strikeout victim, a retiree the side.

Jones chalked up his 11th and final strikeout in the 8th, and finished up the last two frames to become the winning pitcher. He walked seven and allowed only 8 hits over 8 2-3 innings.

After the "Lower" Section went down easily in the first frame, the "Upper" Section came back with three runs to get away to a fast start. Lou Tomlinson hit to right and went all the way to third when the ball got past Fritz Yeagle.

"Chart" Tomlinson walked, stole second, and both scored on George Shadde's single to center. After Shadde went out stealing, Cal Solla was safe on an error and scored when "Dezzie" DeLise walloped a triple to left. He would have had a home run, but for the fact he missed third and had to go back after he had already crossed the plate.

The "Upper" Section added single tallies in each of the 2nd, 3rd, 4th and 5th innings. Home runs by DeLise and "Chart" Tomlinson accounted for the runs in the 3rd and 4th frames respectively.

The score was 6-0 before the "Lower" Section broke into the scoring column with two markers in the 5th on two straight walks, a fielder's choice, and a pair of wild throws.

Both teams had one "merry-go-round" inning. The Bristol teams scored 8 big runs in the 6th to take a commanding 15-2 lead. Undaunted, however, the Suburban club came back in the 7th and went the Bristol teams one better by collecting 9 runs in chasing Jones and Hart to reduce the score to 15-11.

The Bristol teams scored their runs on four hits (two by Harry Erny), two walks, and five errors by the "out-of-towners." The biggest blow of the rally was a double by Dan Fleming who collected three hits for the evening, the most hits anyone rapped out.

In that big 9-run 7th for the Suburban teams they scored on four walks, five hits and one error. Charlie Vansant had two walks in the frame while Walt Poston had a walk and a base-clearing double. Bill Lamson also doubled in the inning.

The "Lower" Section added single counters in the 8th and 9th, and the "Upper" Section finished up their night's work with one in the 7th and four in the 8th, two coming in on Maris Hart's round-tripper.

Scoring by innings:
Lower Sec. - 0 0 0 2 0 9 11-13
Upper Sec. - 3 1 1 1 8 14-20
Winning pitcher: Jones.
Losing pitcher: Whyte.

Dentists Asked To Aid In Determining Identity

Bucks Co. authorities have asked dentists in the Bucks and Philadelphia counties areas to help establish identity of the young woman whose body was found in Magnolia Hollow Woods, near Morrisville, two weeks ago.

A four-tooth dental bridge, which was in the woman's pocketbook when her body was discovered, may help determine who the deceased is, police believe. Her death was attributed to suicide, a note in her purse stating she planned to take her life.

WHYNO WINS PITCHING CROWN IN BRISTOL CIRCUIT

'Snake' Credited With Winning Eleven Games and Losing Only Two

SAMSEL IS SECOND

Hurls Two Tie Games and Loses One by Board's Decision

Charles "Snake" Whyno, St. Ann's pitcher, who has been pitching in Bristol league baseball for 20 years, won this season's hurling crown of the Bristol Suburban League by winning eleven games and losing two. Charlie also twirled a tied game.

Second place honors went to "Benny" Samse, of the Processing team, who won nine games and lost two. Samse also hurled two tied games and also had the misfortune to have another victory taken away from him because an arbitration board ordered another game re-played.

Samse was the only hurler in the circuit who had the distinction of beating St. Ann's, the regular season champions, more than once. "Benny" turned the trick three times and climaxed it with a one-hitter. He also held the "Saints" to a tie score on another appearance.

"Howie" Black, Edgely hurler, won seven games and was unbeaten but the league rules call for a hurler having a won and lost average of ten games before being considered for the hurling championship. Danny Keegan, southpaw St. Ann's hurler, was third in the standing with eight wins and two defeats. Ralph Linck, of Edgely, was fourth with seven wins and three defeats.

Although he did not appear in ten games, "Hughie" Deans, of the Hiboes, had an average of six wins and one defeat while "Loggie" Bragg, of Processing won seven and lost two.

"Kenny" Clark, of Langhorne Legion, and "Hal" Shackleton, of Harriman, both pitched fifteen games for their clubs with Shackleton ending up with seven wins and eight losses and Clark having a 6 and 9 average.

Other team leaders were: Sammy Kershaw, Fleetwings, 4 and 3; "Tuddy" Samse, Schutte-Koerting, 2 and 4; Glenn Miller, Radenhaven, 5 and 1; Gene Ashton, Bristol Legion, 5 and 2; "Billy" Gallagher, Hibernians, 5 and 2; "Red" Liberator, St. Ann's, 5 and 1; Paul Cervellero, Rohm and Haas, six and 7.

The averages as compiled do not include any game played after the regular season of 40 games was completed and excludes all playoffs. The leaders:
